

NOTICE OF PRIVACY PRACTICES FOR PROTECTED HEALTH INFORMATION

Effective Date: April 14, 2003

Andrews Pharmacy
(Name of Pharmacy)

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This Pharmacy is covered by the medical information privacy provisions of the Health Insurance Portability and Accountability Act of 1996 (generally called "HIPAA") and its Regulations. As a result, we are required to comply with HIPAA and the Regulations in the use and disclosure of health information by which our customers can be individually identified. This health information is referred to as "Protected Health Information" or "PHI" for short. We are also required under Section 164.520 to give our customers this notice (in paper or electronically as the customer wishes) of our legal duties and privacy practices concerning their Protected Health Information, and also to tell our customers about their rights under HIPAA and the Regulations.

1. USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION

There are two categories for the use and disclosure of our customers' Protected Health Information: (1) information that we can use and disclose without the customer's prior consent; and (2), information that we cannot use or disclose without the customer's prior authorization.

A. CUSTOMERS' PRIOR CONSENT NOT REQUIRED

- (1). Treatment. In the first category, we are permitted to use and disclose our customers' Protected Health Information in connection with their medical treatment in situations such as allowing a family member or other relative or a close personal friend or other person involved in the customer's health care to pick the customer's prescriptions and to receive Protected Health Information that is directly related to the customer's care. In doing so, we are to use our professional judgment and experience with common practice in determining what is in the customer's best interest. Other examples include sending information about a customer's prescriptions to the customer's family doctor or to a specialist who is treating the customer or to a hospital where the customer is receiving care, particularly if the customer has suffered a health emergency.
- (2). Payment. If a customer is covered by a pharmacy benefit plan, we are entitled send Protected Health Care Information to the plan or to another business entity involved in our billing system describing the medication or health care equipment we have dispensed so that we can be paid.
- (3). Health Care Operations. In addition, we can provide Protected Health Information for health care operations such as evaluations of the quality of our customers' health care in order to improve the success of treatment programs. Other examples include reviews of health care professionals, insurance premium rating, legal and auditing functions, and business planning and management.
- (4). Other Permitted Uses and Disclosures. There are a number of other specified purposes for which we may disclose a customer's Protected Health Information without the customer's prior consent (but with certain restrictions). Examples include public health activities; situations where there may be abuse, neglect or domestic violence; in connection with health oversight activities; in the course of judicial or administrative proceedings; in response to law enforcement inquiries; in the event of death; where organ donations are involved; in support of research studies; where there is a serious threat to health and safety; in cases of military or veterans' activities; where national security is involved; for determinations of medical suitability; for government programs for public benefit; for workers' compensation proceedings; when our records are being audited; when medical emergencies occur; and when we communicate with our customers orally or in writing about refilling prescriptions, about generic drugs that may be appropriate for a customer's treatment, or about alternative therapies.

B. CUSTOMER'S PRIOR AUTHORIZATION REQUIRED

For purposes other than those mentioned above, we are required to ask for our customers' written authorizations before using or disclosing any of their Protected Health Information. If we request an authorization, any of our customers may decline to agree, and if a customer gives us an authorization, the customer has the right to revoke the authorization and by doing so, stop any future uses and disclosures of the customer's health information that the authorization covered. An example of a situation where the customer's prior authorization would be required would be if we wish to conduct a marketing program that would involve the use of Protected Health Information.

2. CUSTOMERS' RIGHTS

HIPAA and the Regulations provide our customers with rights concerning their Protected Health Information. With limited exceptions (which are subject to review) each customer has the right to the following:

- (a). Customer's Record. Each customer can obtain a copy of his or her Protected Health Information by completing our request form. The only charge will be based on our cost in responding to the request. The amount of the charge will vary depending on the format the customer requests and whether the customer wants the record or a summary, and whether it is to be delivered by mail or otherwise. The customer will be told of the fee when the customer's request is received.
- (b). Accounting for Disclosures. By completing our request form, each customer is entitled to obtain a list of the disclosures of the customer's Protected Health Information that have occurred within a period of 6 years after April 14, 2003, except for disclosures made for the purposes of treatment, payment or health care operations and certain others. There will be no charge for the first request in any 12 month period, but we are entitled to charge a reasonable cost based fee for additional requests made in the same period of time.
- (c). Amendments. Each customer may ask to change the record of his or her own Protected Health Information by completing our request form explaining why the change should be made. We will review the request, but may decline to make the change if in our professional judgment we conclude that the record should not be changed.
- (d). Communications. By completing our request form, each customer can ask us to communicate with him or her about their own Protected Health Information health information in a confidential manner such as by sending mail to an address other than the home address or using a particular telephone number.
- (e). Special Restrictions. By completing our request form, each customer can ask us to adopt special restrictions that further limit our use and disclosure of the customer's Protected Health Information (except where use and disclosure are required of us by law or in emergency circumstances). We will consider the request; but in accordance with HIPAA and the Regulations, we are not required to agree to with the request.
- (f). Complaints. If a customer believes that we have violated the customer's rights as to the customer's Protected Health Information under HIPAA and the Regulations, or if a customer disagrees with a decision we made about access to the customer's Protected Health Information, the customer has the right to complete our complaint form and deliver it to our Contact Person listed below. Our Contact Person is required to investigate, and if possible, to resolve each such complaint, and to advise the customer accordingly. The customer also has the right to send a written complaint to the U.S. Department of Health and Human Services at the addresses shown on the complaint form. Under no circumstances will any customer be retaliated against by this Pharmacy for filing a complaint.

We are required by law to protect the privacy of our customers' Protected Health Information, to provide this notice about our privacy practices, and follow the privacy practices that are described in this notice. We reserve the right to make changes in our privacy practices that will apply to all the Protected Health Information we maintain. A new notice will be available on request before any significant change is made.
